Diagram illustrating the exploded view of a washing machine assembly, showing various components and their assembly sequence. The components are numbered 1 through 64.

Key components and assembly steps include:

- Top Panel (1):** The main upper body of the machine.
- Door (2):** The front door of the machine.
- Drum (3):** The central rotating drum.
- Motor (4):** The main drive motor.
- Control Panel (5):** The front control interface.
- Base (6):** The bottom support structure.
- Internal Components (7-10):** Various internal parts including gears, bearings, and seals.
- Door Assembly (11-14):** Components for the door hinge and latch mechanism.
- Motor Mounting (15-18):** Parts for securing the motor to the frame.
- Drum Mounting (19-22):** Components for securing the drum to the motor.
- Internal Structure (23-26):** Various internal structural and support parts.
- Control Panel Mounting (27-30):** Components for mounting the control panel.
- Base Mounting (31-34):** Components for mounting the base to the floor.
- Door Seal (35):** The rubber seal for the door.
- Internal Components (36-40):** Various internal parts including gears, bearings, and seals.
- Drum Mounting (41-44):** Components for securing the drum to the motor.
- Motor Mounting (45-48):** Parts for securing the motor to the frame.
- Control Panel Mounting (49-52):** Components for mounting the control panel.
- Base Mounting (53-56):** Components for mounting the base to the floor.
- Door Seal (57):** The rubber seal for the door.
- Internal Components (58-61):** Various internal parts including gears, bearings, and seals.
- Drum Mounting (62-64):** Components for securing the drum to the motor.
- Motor Mounting (65-68):** Parts for securing the motor to the frame.
- Control Panel Mounting (69-72):** Components for mounting the control panel.
- Base Mounting (73-76):** Components for mounting the base to the floor.
- Door Seal (77):** The rubber seal for the door.
