This exploded view diagram illustrates the assembly of the Zanussi ZK 1000 electric grill. The main components are shown in their relative positions, with numbers 1 through 47 identifying individual parts. Key assembly points include the front panel (1) with its control knobs (21) and indicator light (23), the main body (3) with its heating element (18) and grill rack (12), and the top lid (7) with its handle (13) and hinge mechanism (22). The diagram also shows the rear panel (4) with its power cord (10) and terminal block (43). Various screws (e.g., 26, 32, 34) and nuts (e.g., 30A, 30B) are shown for securing the assembly. The diagram includes specific voltage and amperage ratings for different regions: 220V/11A for USA, 220V/11A for UK, 220V/11A for Japan, and 220V/10A for Australia.
